**[Host]** Japan Society of electromagnetic wave energy applications (JEMEA)

**[Preface]** Japan Society of Electromagnetic Wave Energy Applications (JEMEA) hold Symposium annually.

Each year we welcome around 200 researchers from home and abroad. As a 13th Symposium venue, we selected Tsukuba, Ibaraki prefecture, famous city as a science & technology. JEMEA is one of the most important domestic Society which deal with science & technology about Microwave energy Applications. During Symposium period, about 100 researchers hold oral/poster presentation as the result of their latest studies, which treat various study fields. Attendee can enjoy lively debate about Microwave also. We recommend this Symposium to those who want to exchange novel information and technology about Microwave Energy applications. We are waiting for your presentation, and participation. During Symposium, equipment displays are scheduled also.
